Please review the guideline.

We'll now show the exam features step by step.

You may use paper and pen to solve the questions.

Remember to bring water and the adapter.

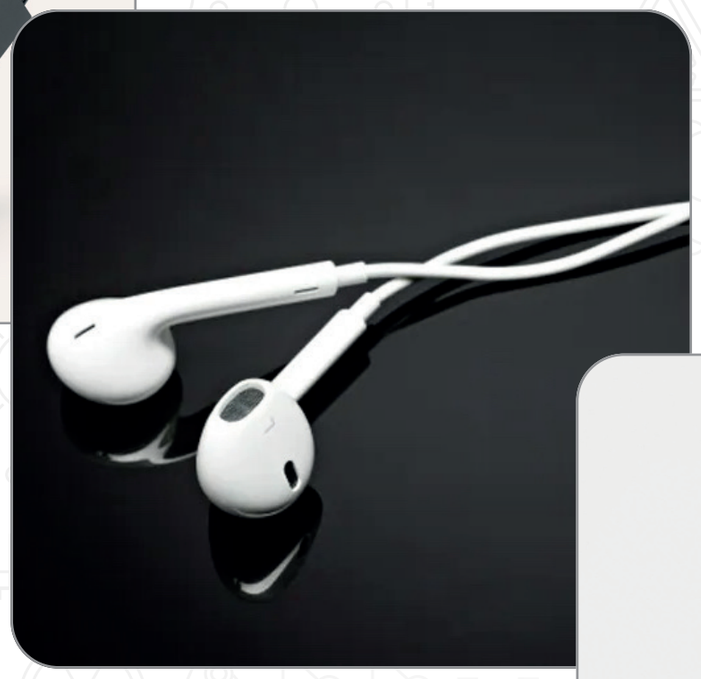

✕ Calculators and ✕ dictionaries are
not allowed.

✕Headphones, ✕hats, and
✕face coverings are not allowed.

✕ Do not leave the exam or get assistance from others.

EXAM READINESS

Before You Start the Exam

Before You Start the Exam

Our exam system is compatible with a wide range of devices and software, and technical issues are generally rare. However, updates to devices or software, changes in your system, or discontinued manufacturer support may cause difficulties during the exam. Please note that our system cannot update or modify your devices or software, so ensuring compatibility is the responsibility of each participant.

To help you prepare, we are sharing the following technical requirements and recommendations.

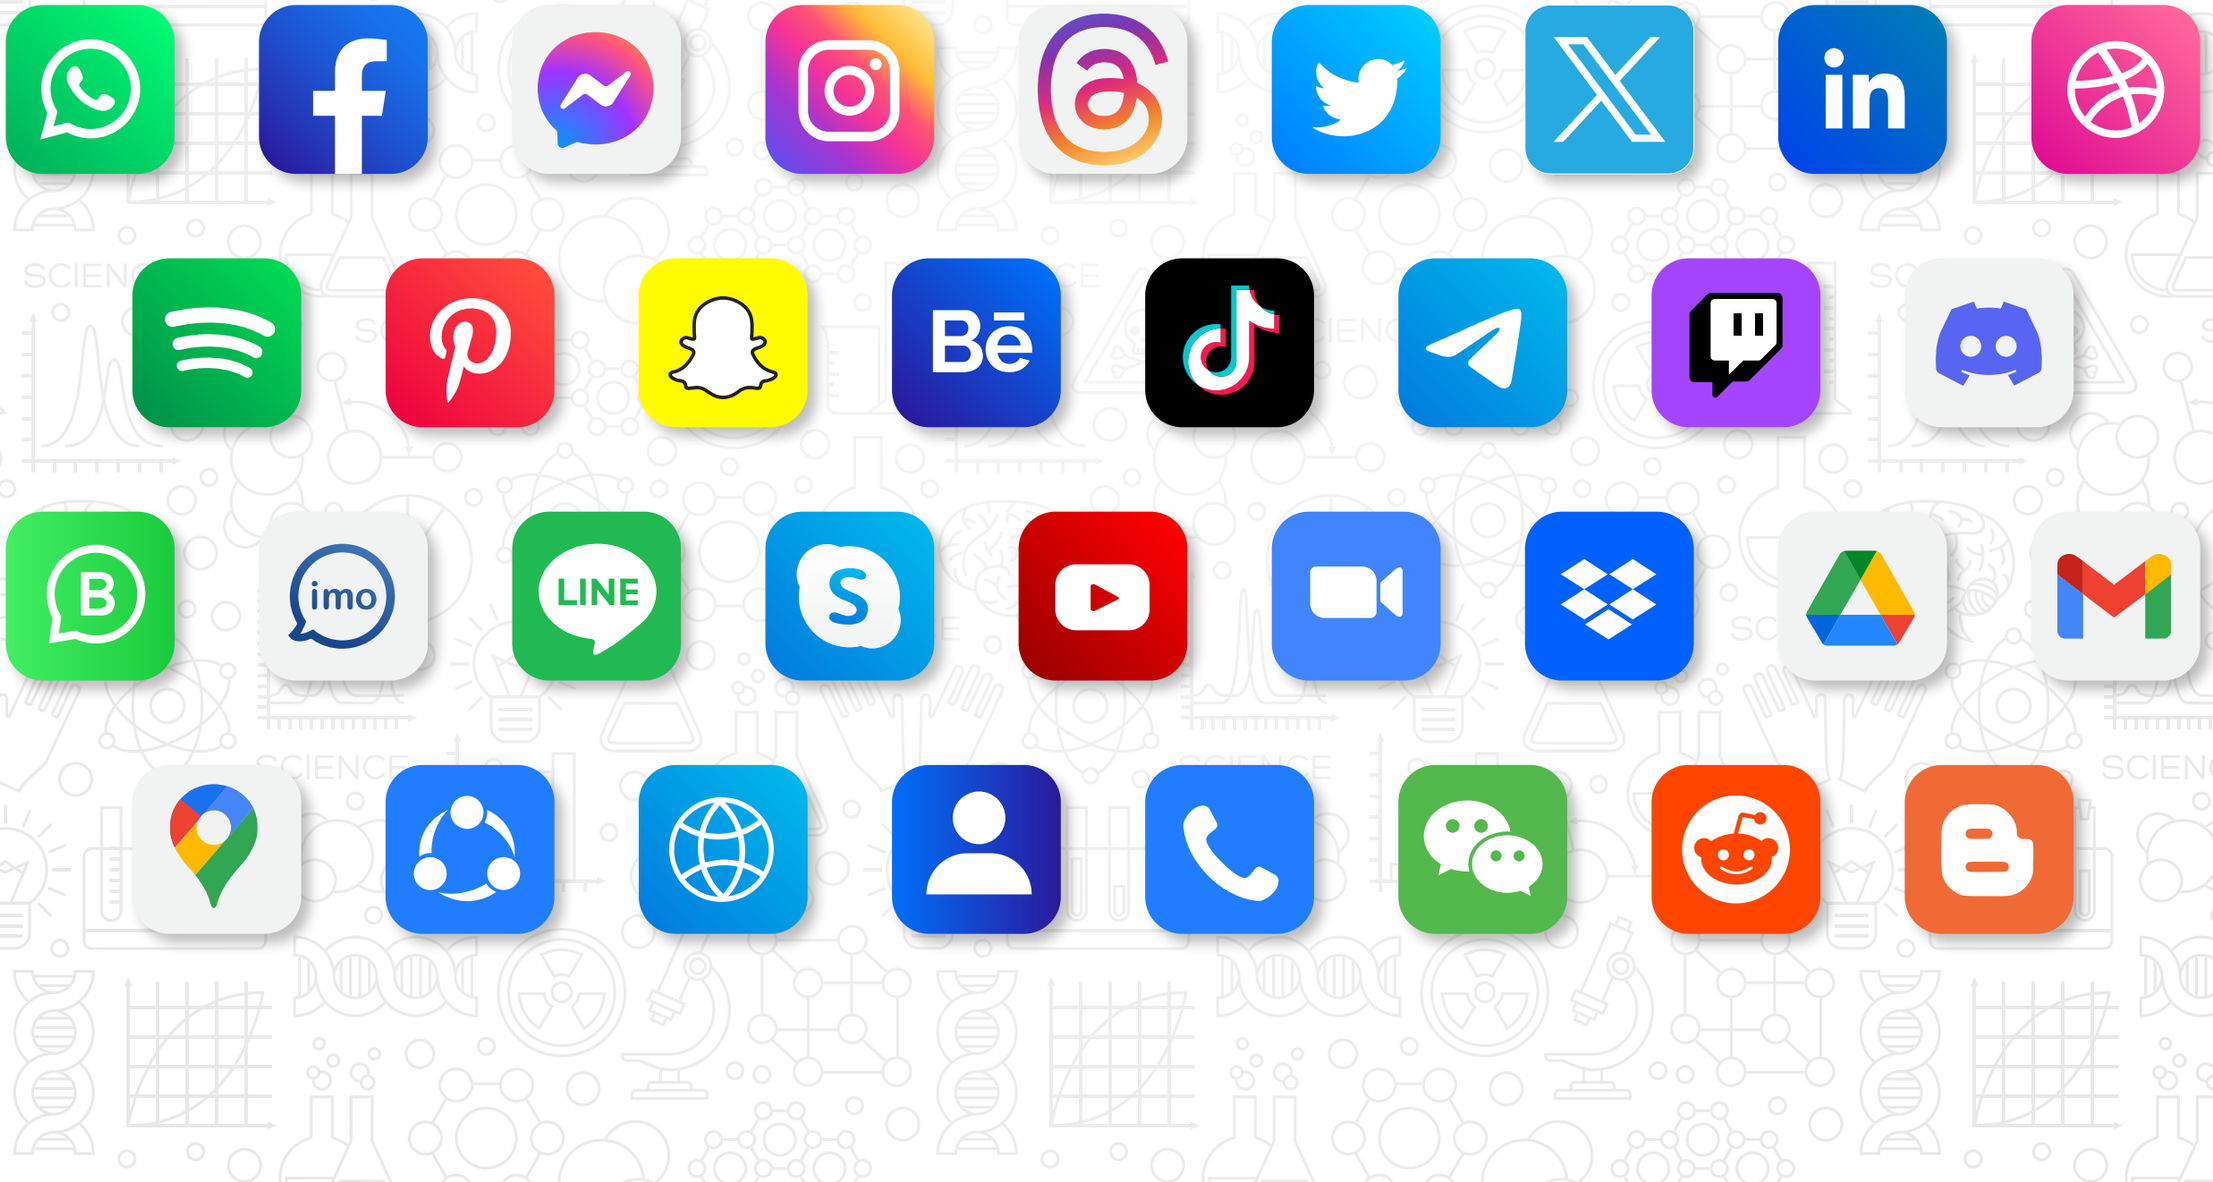

Recommended Setup

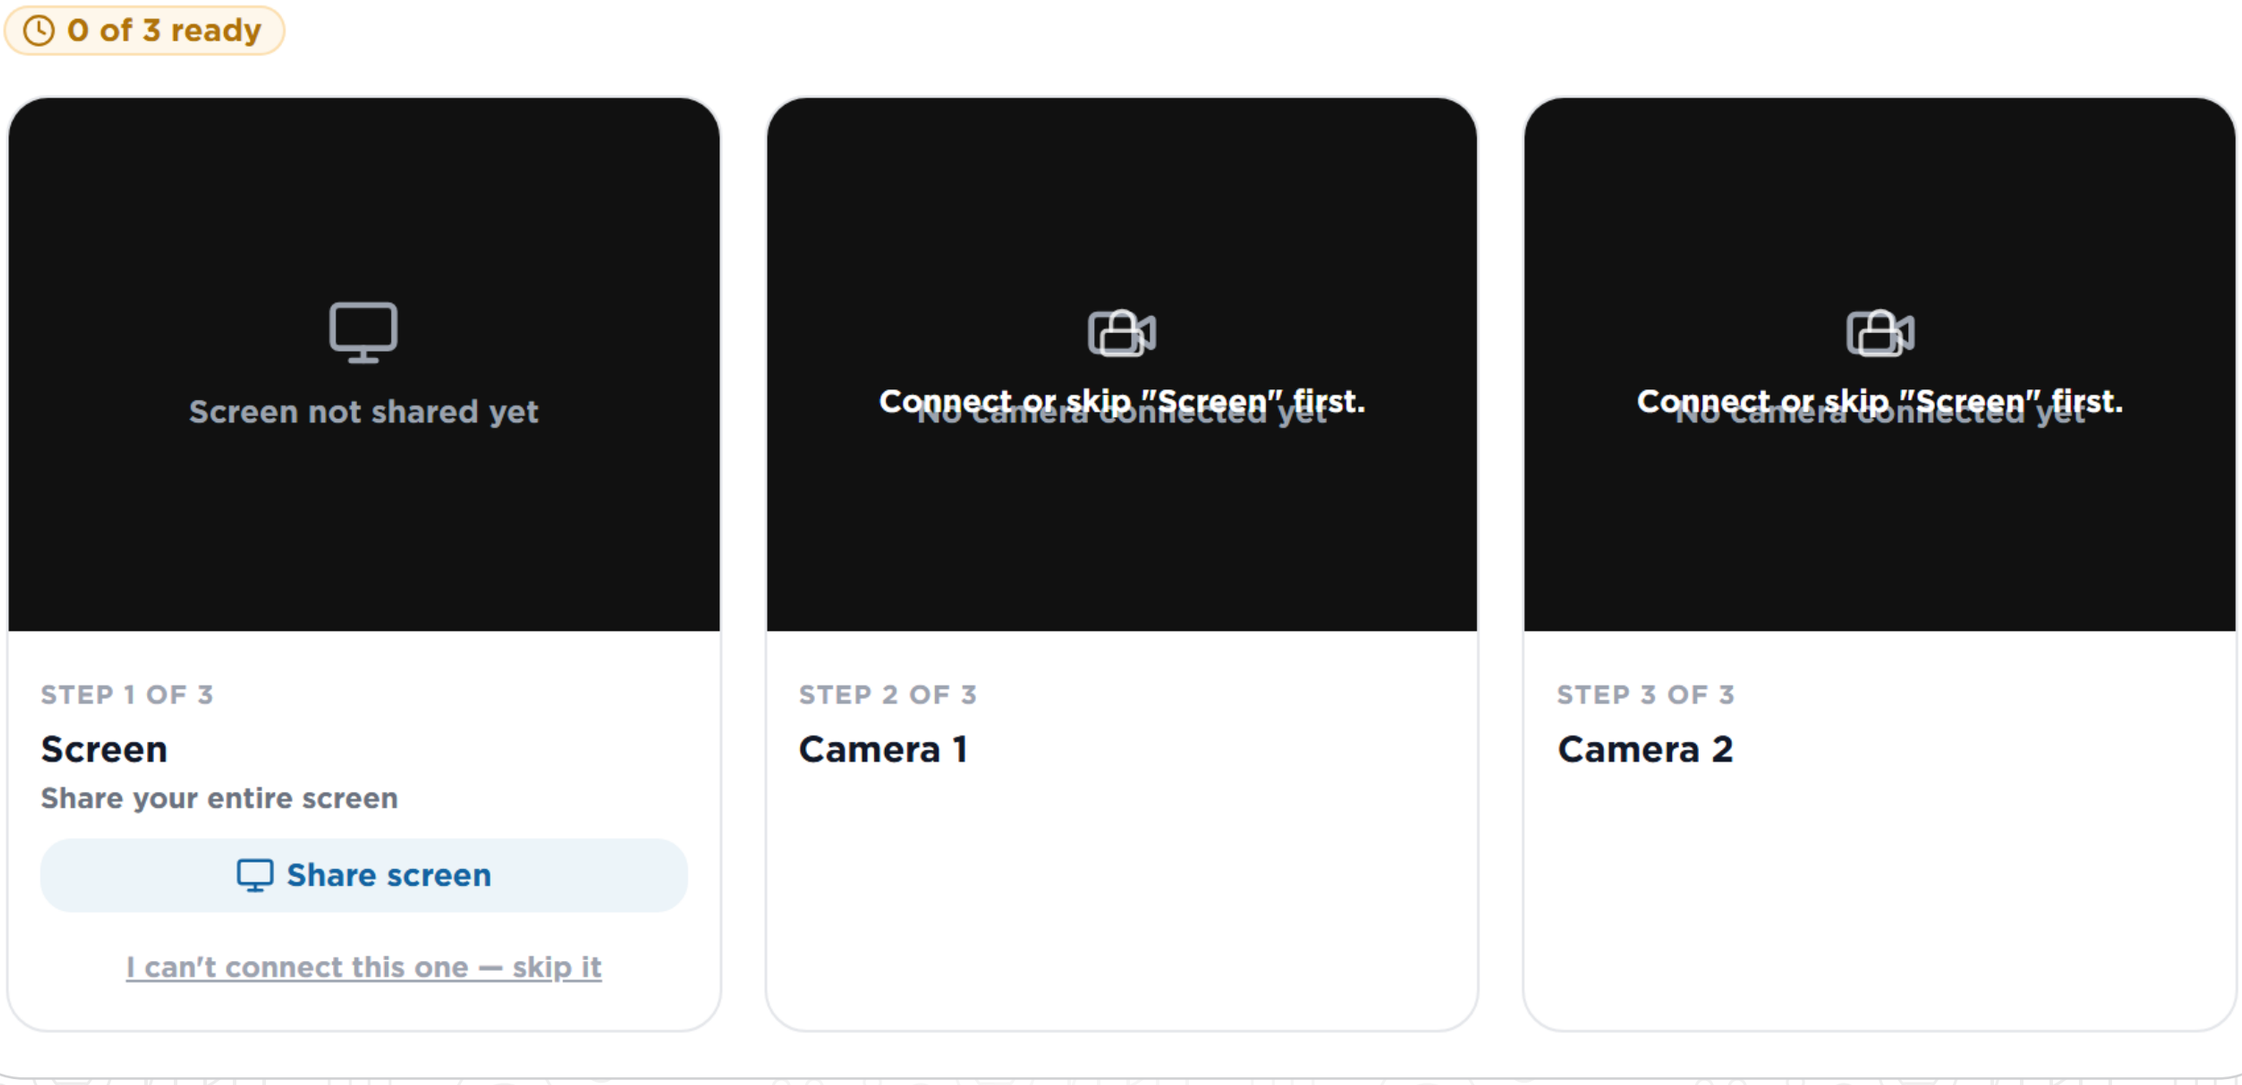

While using Android or iOS phones and tablets is allowed, we strongly recommend using a PC or laptop for the best experience.

Please keep your camera and screen sharing active at all times during the exam, as your camera and screen will be recorded throughout the exam.

Read the necessary technical reminders for your device.

Before starting the exam, please turn off all background applications, especially browser translation feature, all social media, and any programs that may interfere with your browser. Otherwise, some features on the exam screen may not work properly.

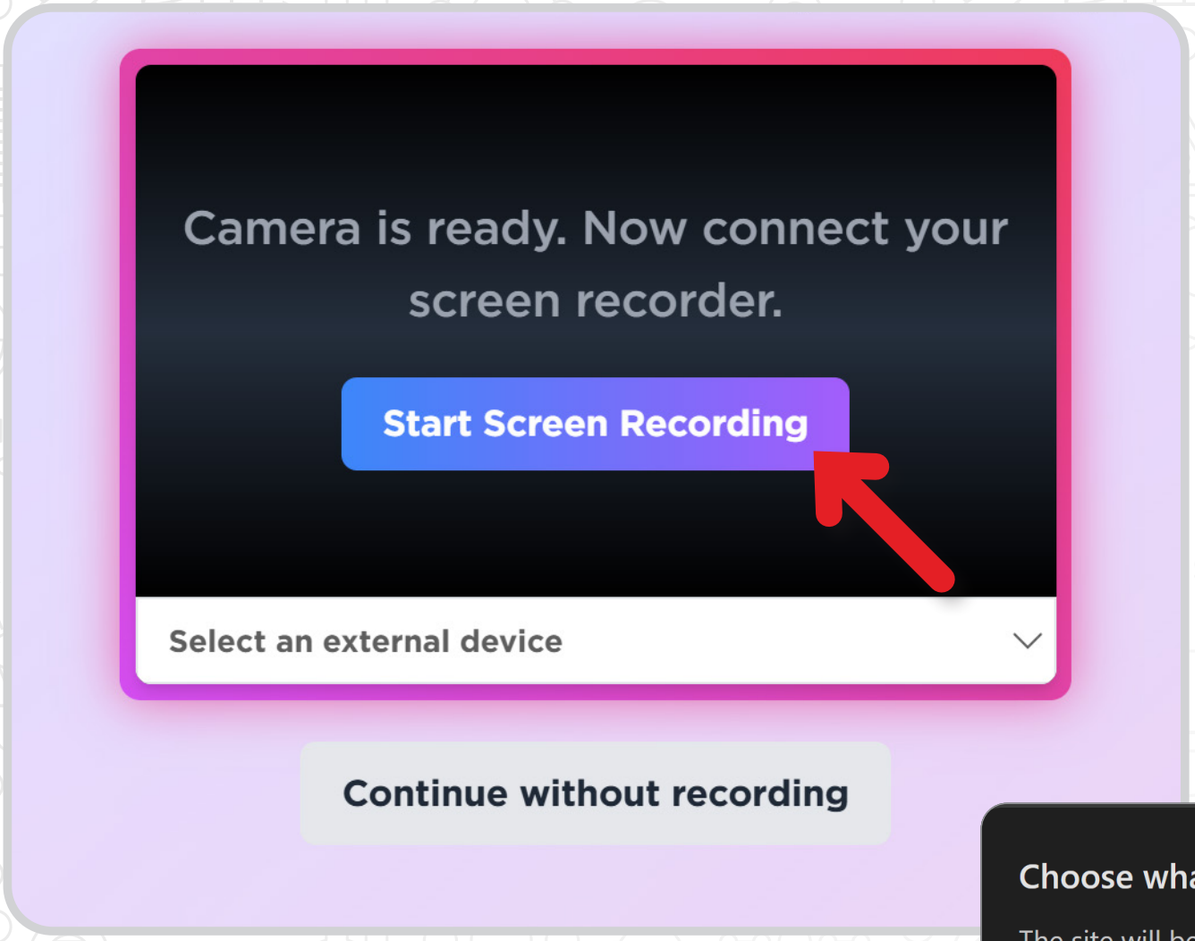

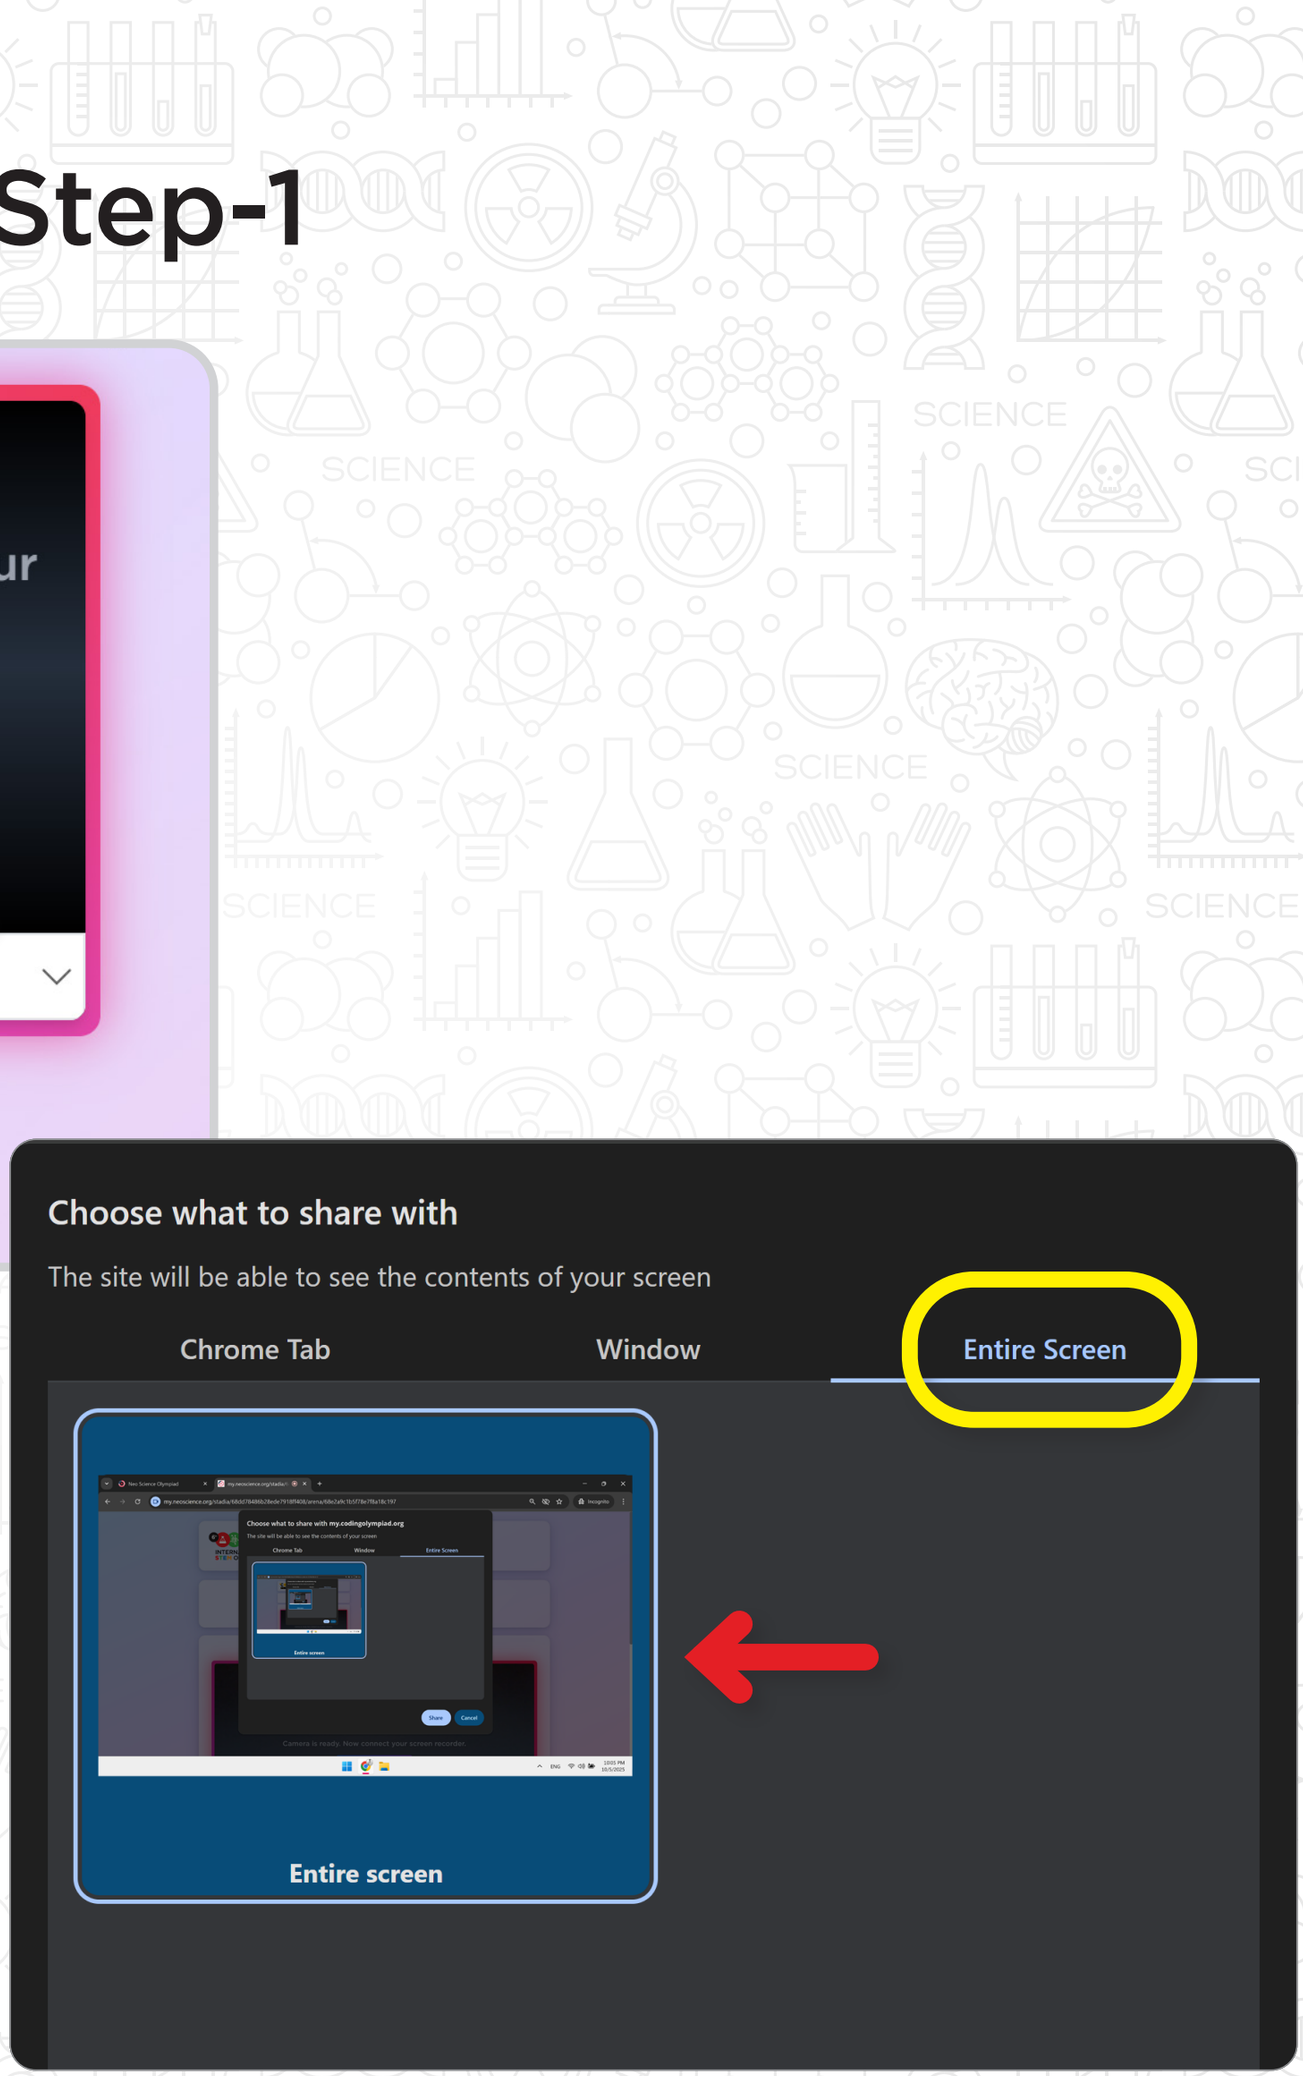

Step-1: Screen Sharing:
Share your entire screen by selecting “Entire Screen”.

Step-2: External Camera:
Activate your smartphone or tablet as an external camera by scanning the QR code.

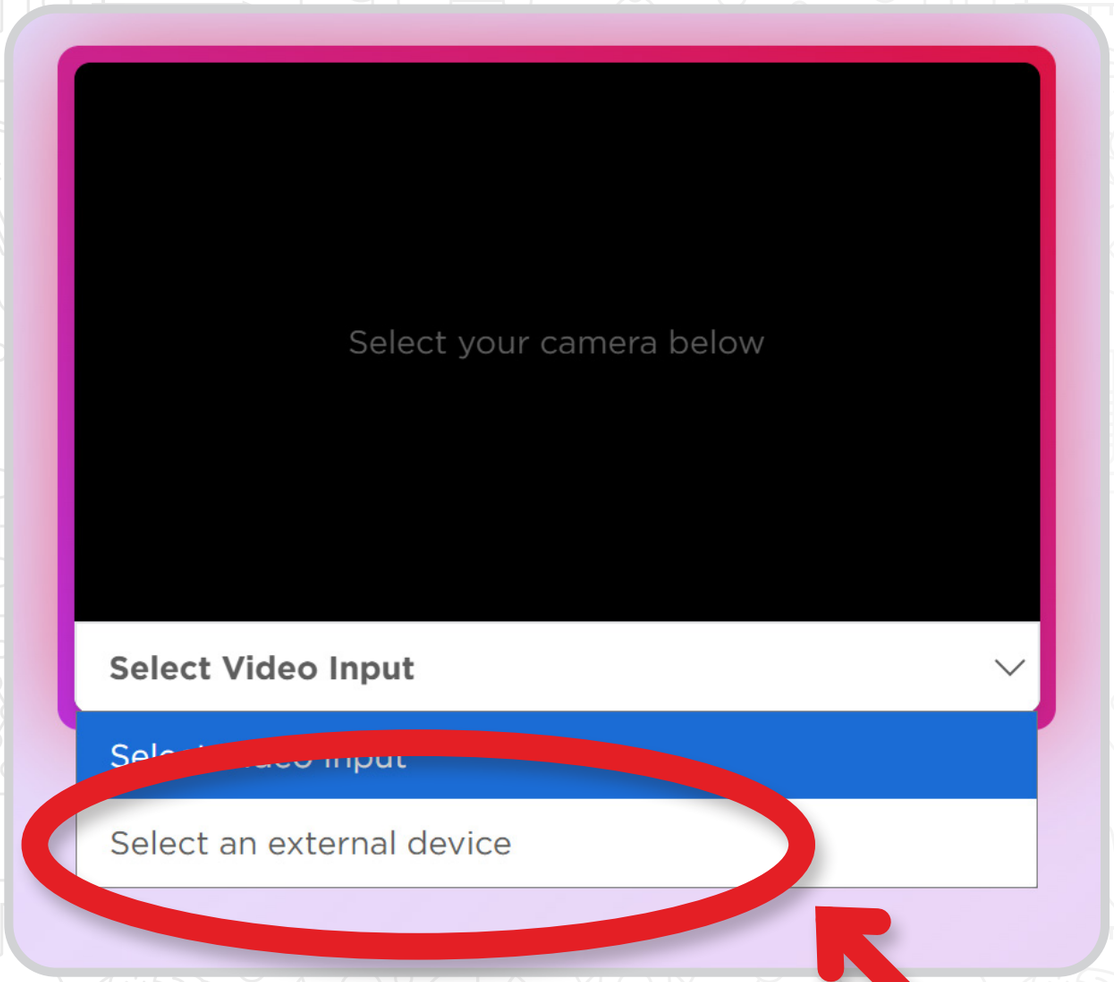

Step-3: Device Camera:
Activate your device’s built-in camera.

Step-1

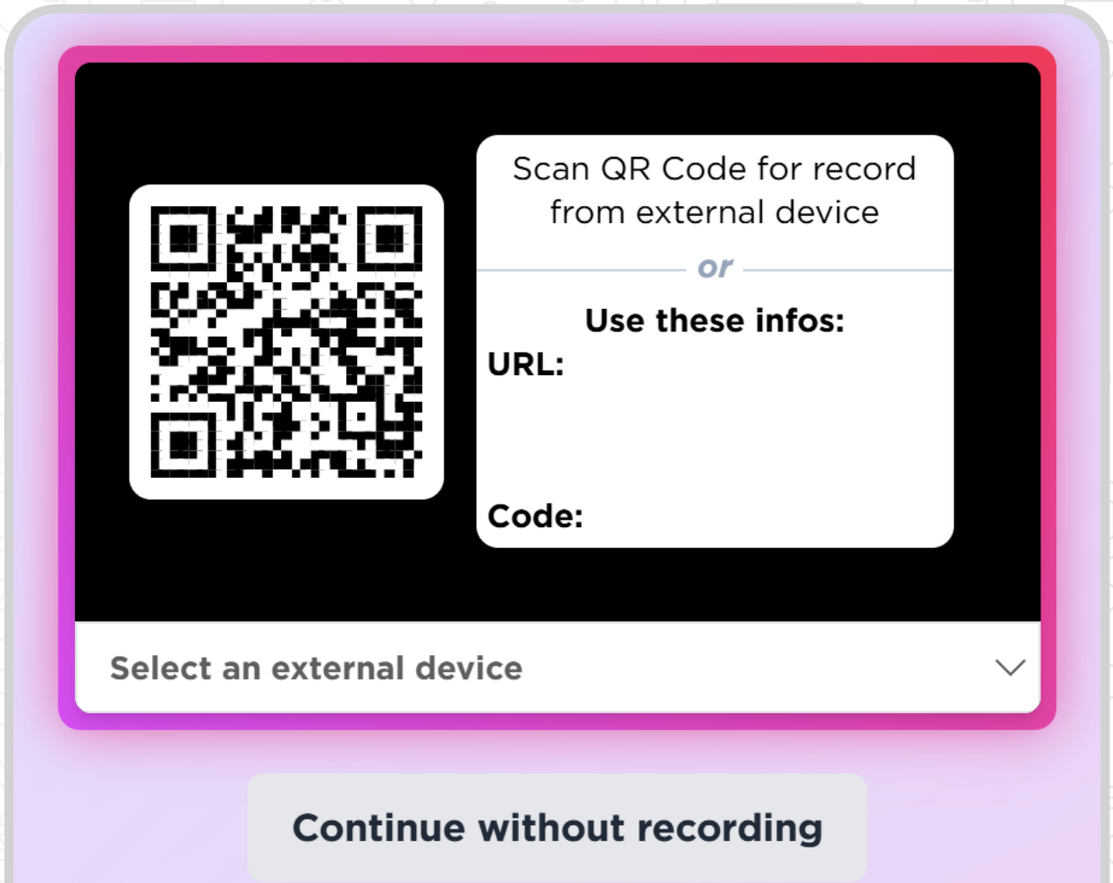

Camera is ready. Now connect your screen recorder.
Start Screen Recording
Select an external device
Continue without recording

Choose what to share with
The site will be able to see the contents of your screen
Chrome Tab
Window
Entire Screen
Entire screen

Step-2

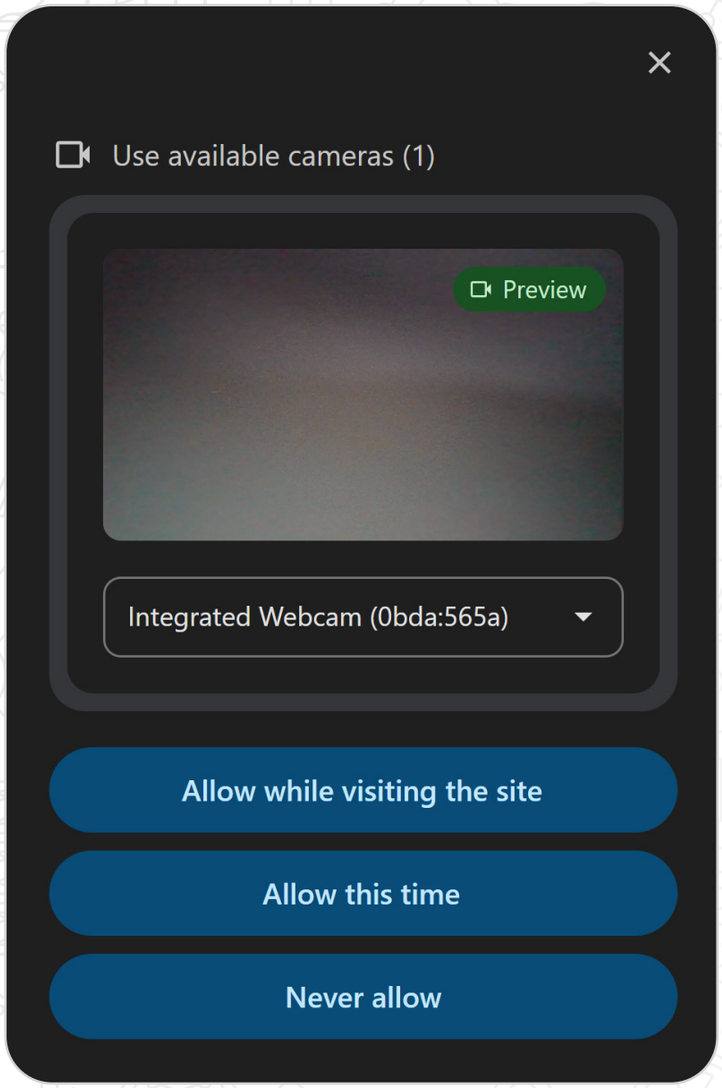

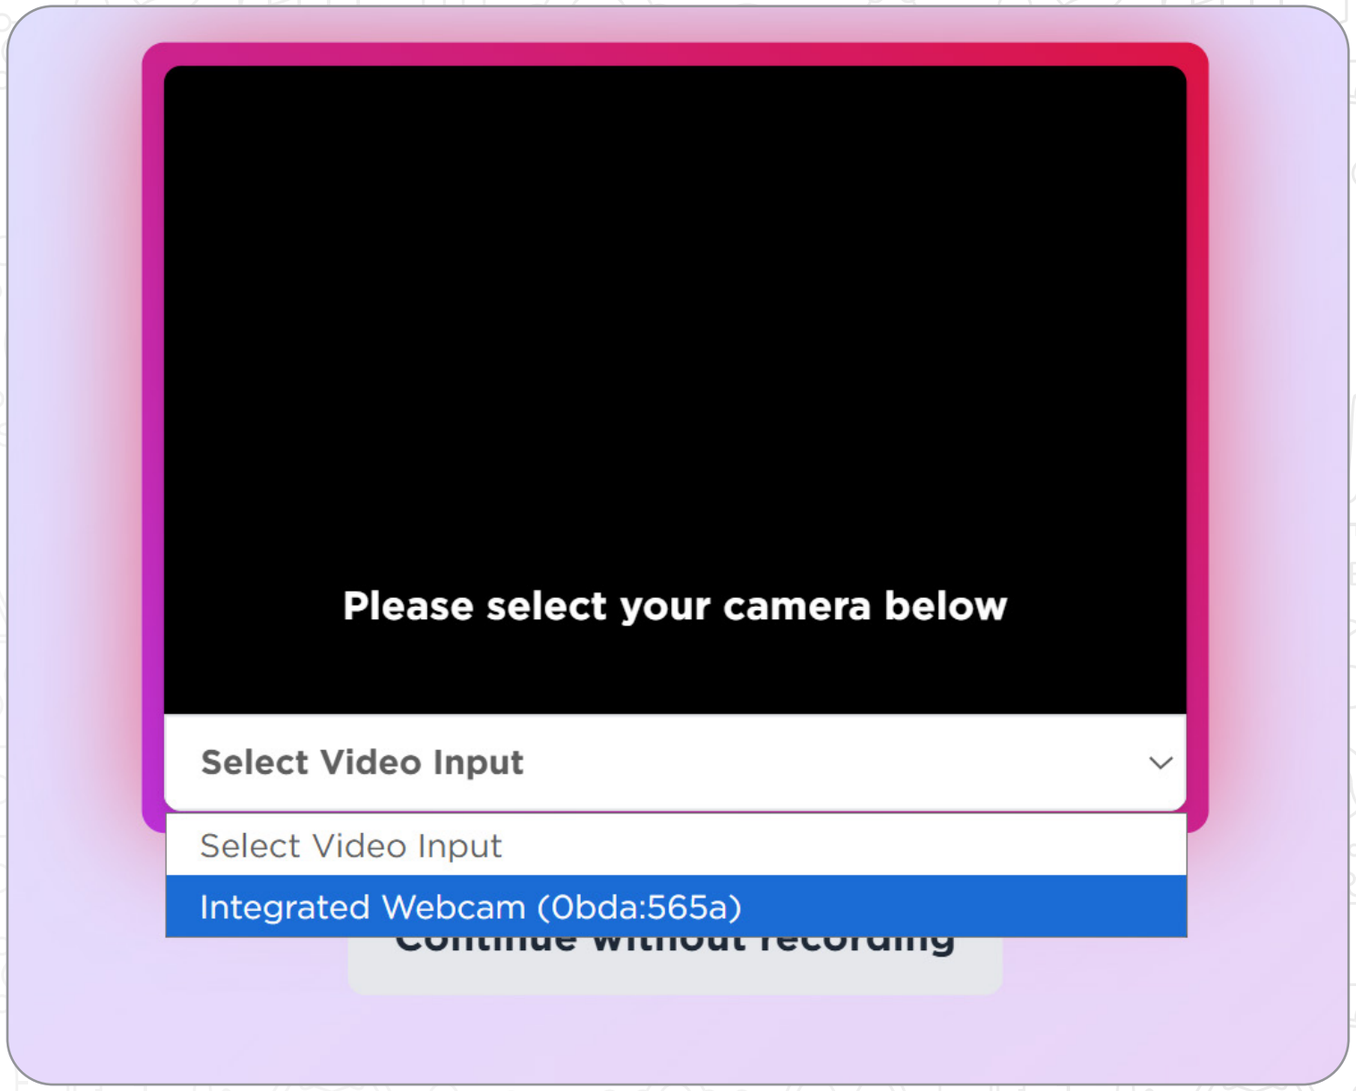

Select an external device

Use your mobile phone's camera to scan the QR code.

Step-3

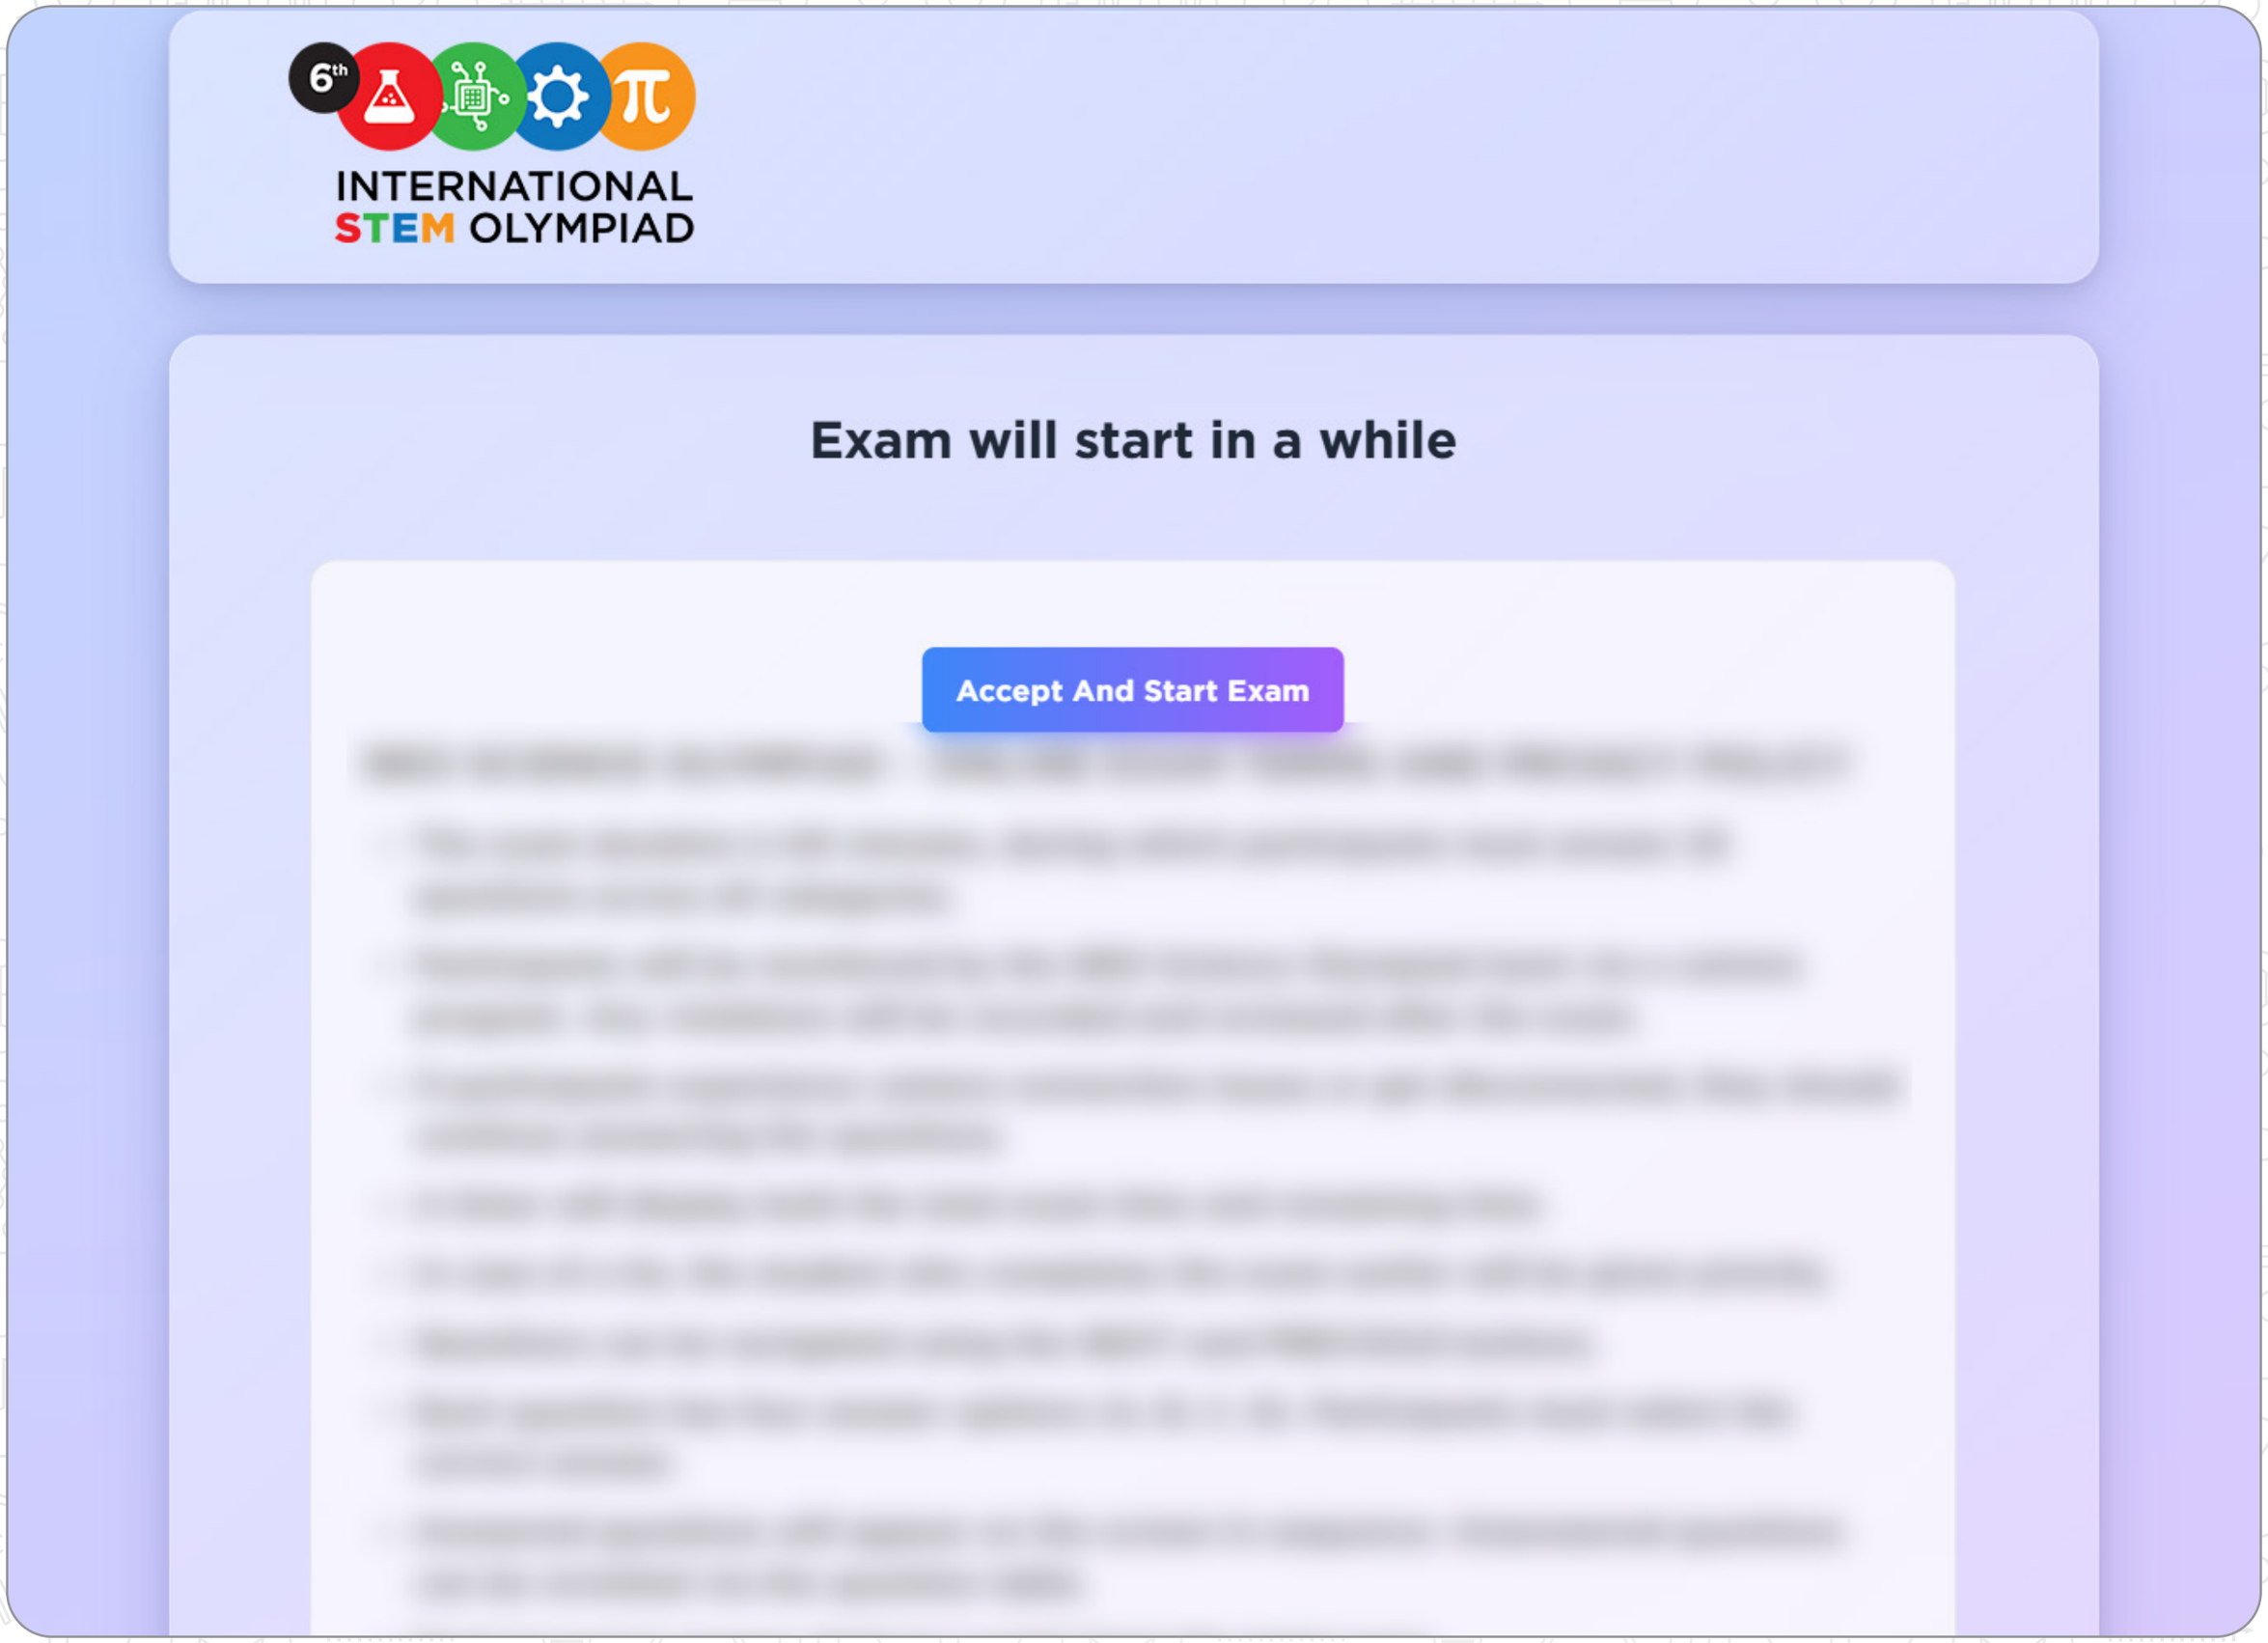

Keep your camera on

The external camera must clearly show your screen, desk, keyboard, mouse, hands, arms, head, and upper body.

In the Qualification Round, camera or screen-sharing connection interruptions, technical issues or failure to activate these features will not affect exam scores or evaluation.

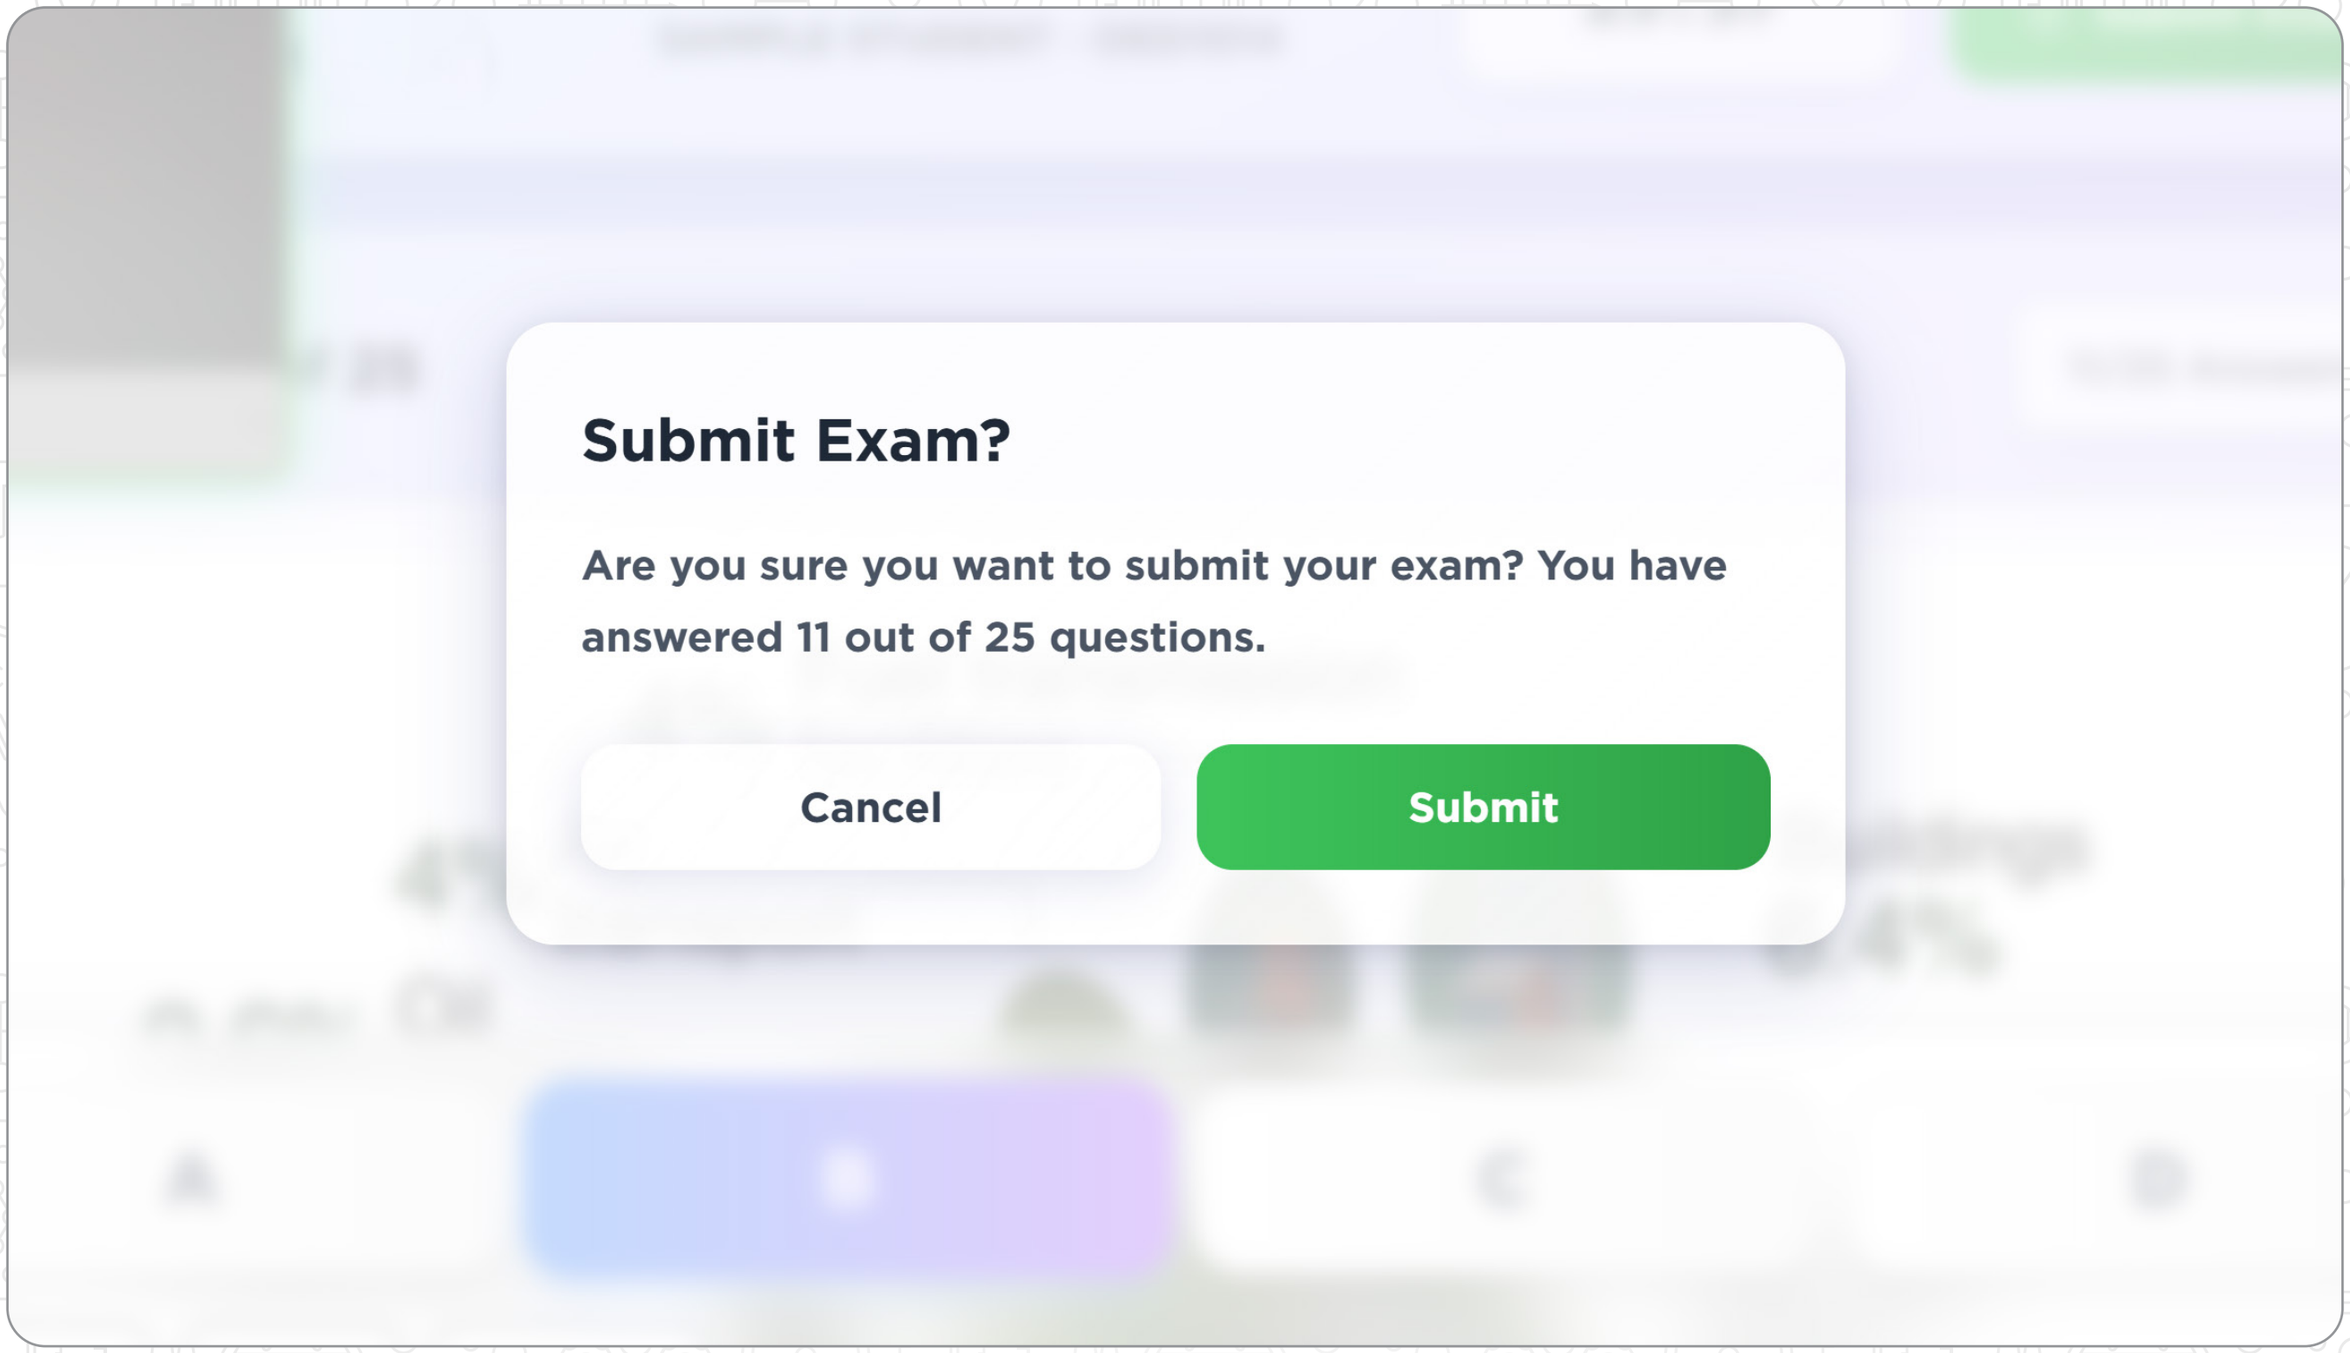

In the Final Round, both cameras and screen sharing must remain active throughout the exam, with camera angles and visibility meeting the specified requirements, for participants to be eligible for a top 10 ranking and qualify for the Best of the Best (BOB) Round.

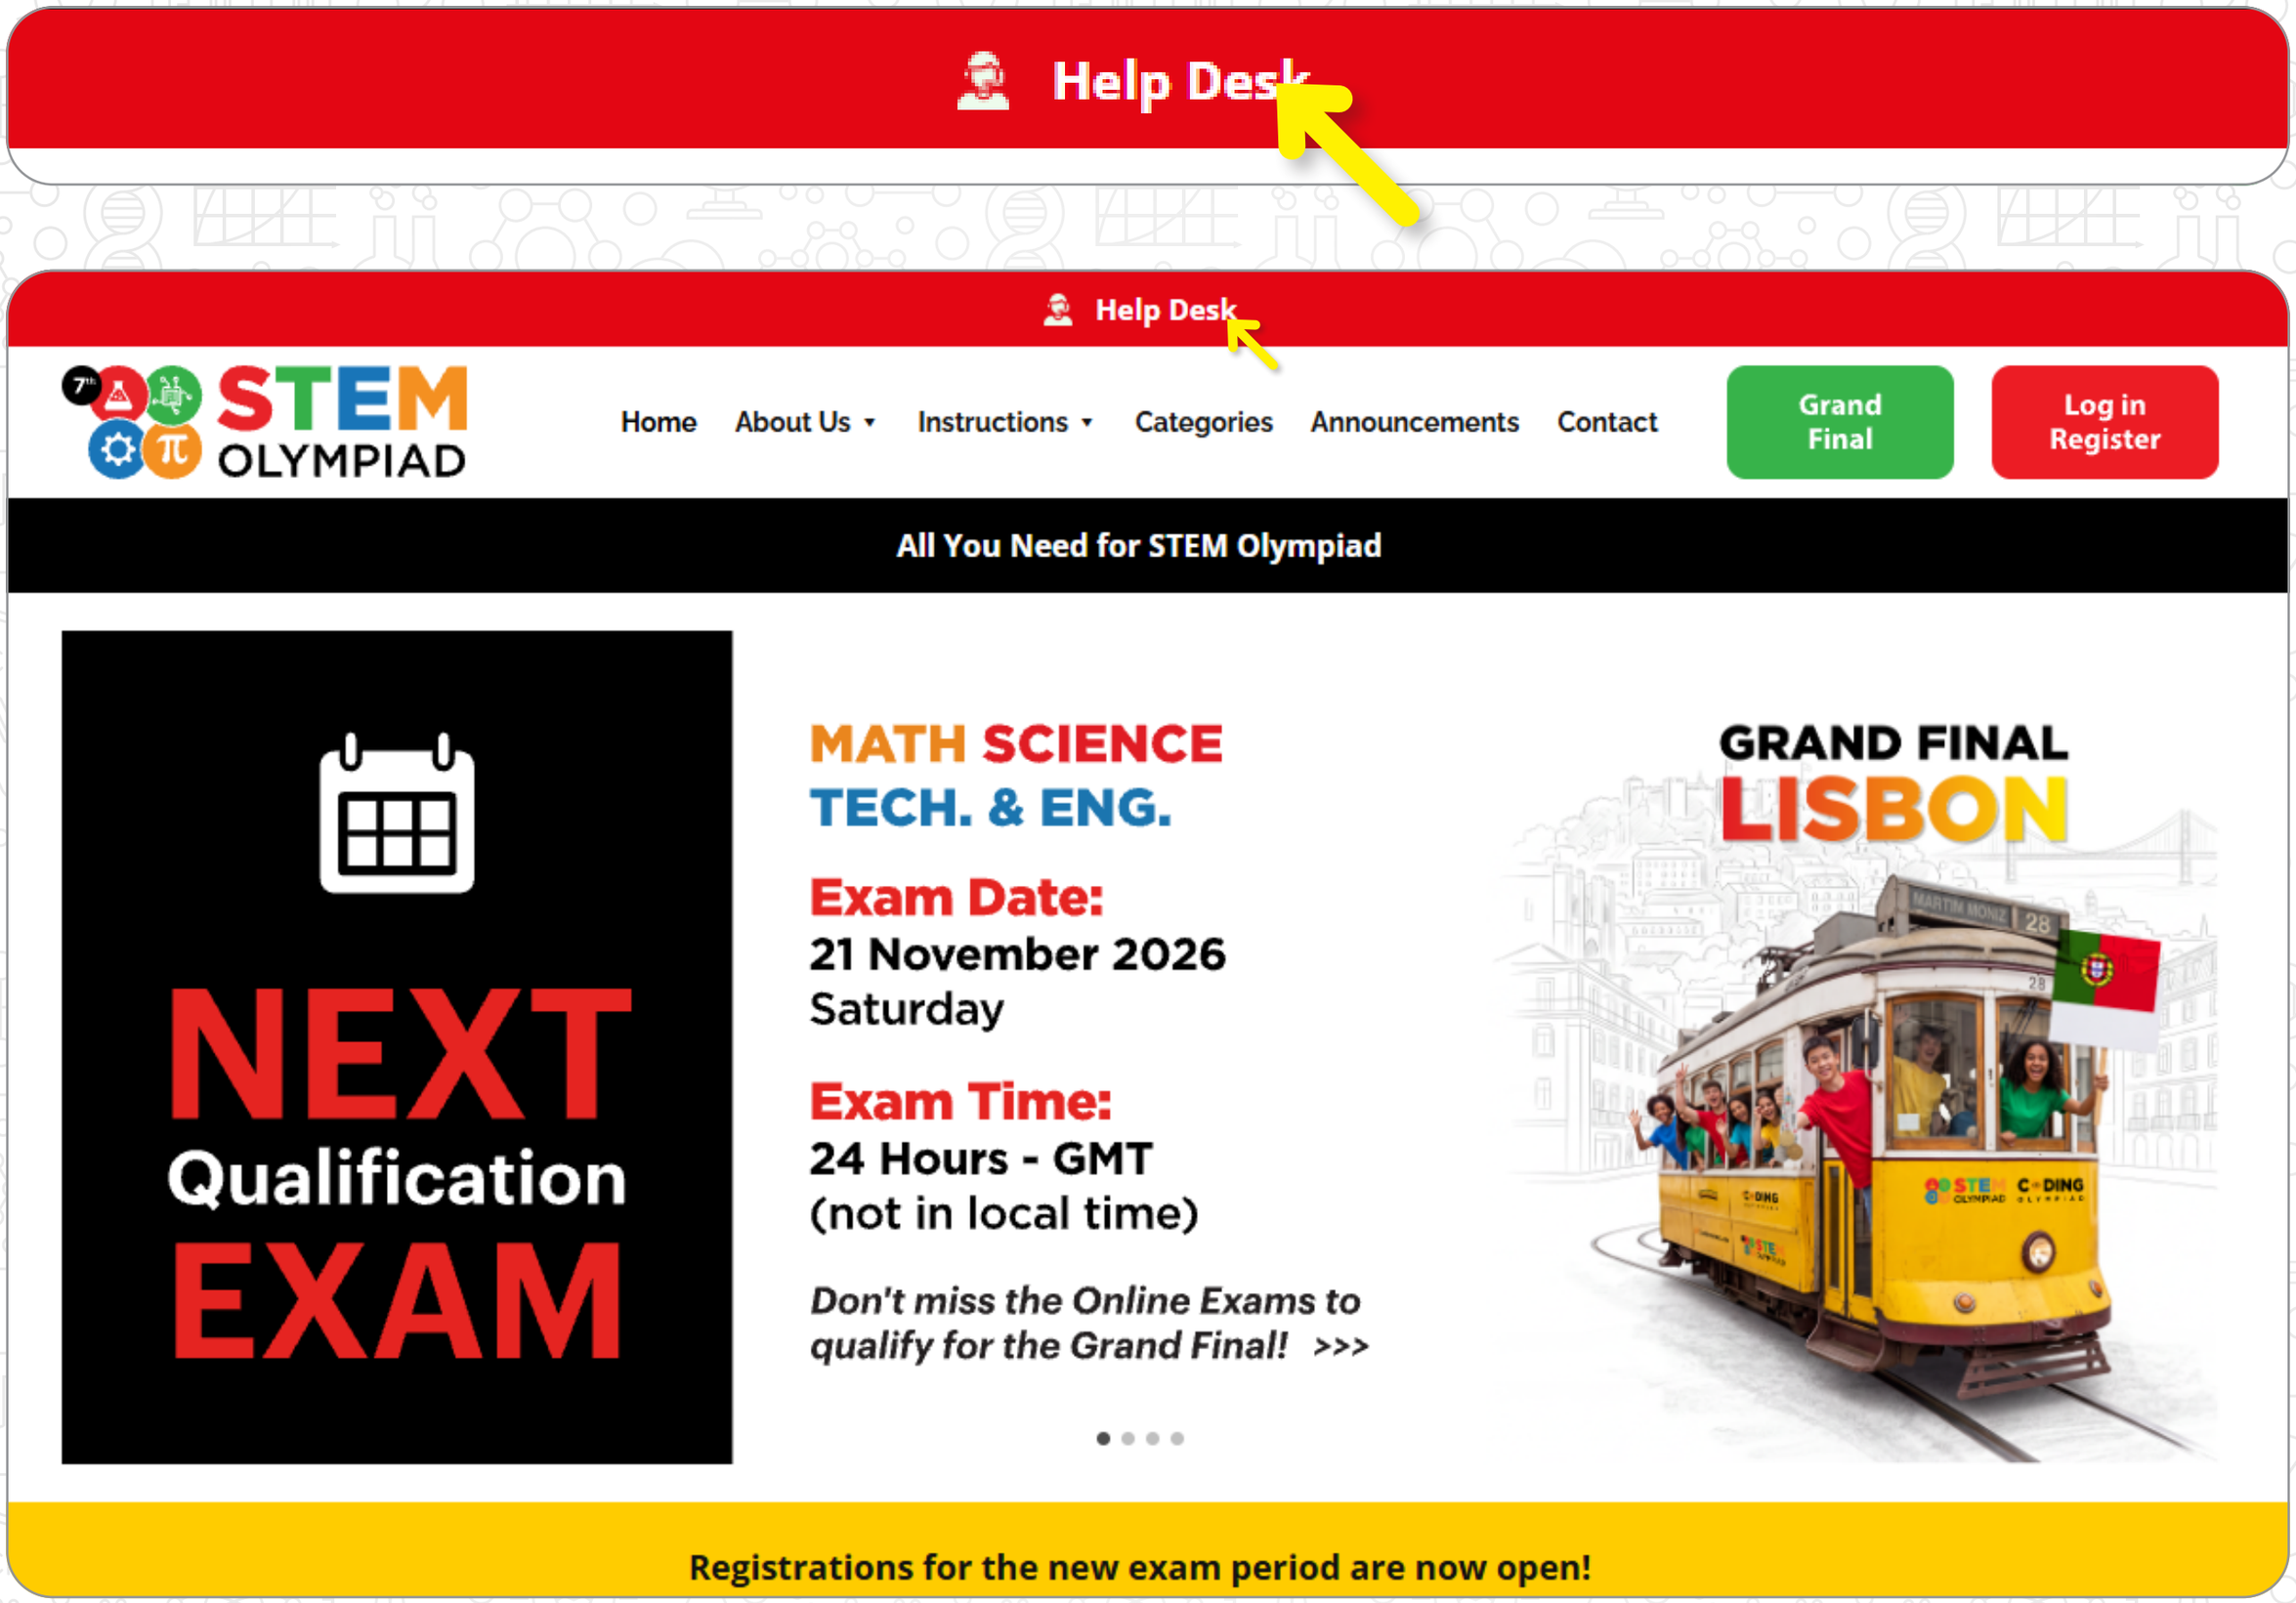

Read the exam conditions
before the exam.

If you see the screen below due to any issue, click “Continue” to proceed with the exam.

Participants who finish early should click the END EXAM button to submit their exam. Submission time does not affect results in the Qualification Round, as no rankings are determined at this stage. However, in the Online Final Round, submission time is used as a tiebreaker when participants achieve the same score.

For questions or assistance, please visit the HELP DESK (FAQ) on the STEM Olympiad website.

Exam Entry or Start Time:

You can start the exam at any time during the exam period. (24-hour, GMT)

Click the START button only when you are ready.

Exam Access and Submissions:

You may log in at any time within this 24-hour (GMT) window. Ensure that you have enough time and are fully prepared before starting, since the exam cannot be paused or stopped once it begins.

Exam Submission:

Start your exam no later than 23:00 GMT (11 PM) on the scheduled exam day.

If you cannot complete the exam within 60 minutes, the system will automatically save and submit your exam.

EXAM RESULTS

The exam results will be announced within 12 days. Once they are released, you will be able to download your report and participation certificate from your Hi-Lingua student panel.

Please note:

If you submit or miss the exam,

- **you cannot retake it,**
- **you cannot restart it.**

Best of Luck!
